01 — PROFILE

GENERAL BUILDING AND CIVIL ENGINEERING CONTRACTOR.

Founded in Marrakech in 1998, Société AHMA is the general contractor for the Kingdom's public-interest projects. A general building and civil engineering contractor, it delivers the works from A to Z, from structural works to turnkey handover, with its integrated trades and its 4,000 employees.

Its field of operation covers the full spectrum of construction: hospitals and oncology centres, courts and public institutions, training centres and universities, sports facilities (multipurpose sports halls, olympic and semi-olympic swimming pools, sports grounds of every kind).

AHMA also builds military facilities, holiday camps and cultural centres, mosques, large-scale residential complexes, hotels and factories: every type of structure, whatever its scale or complexity.

From the first formwork to the handover of the keys, our teams command every trade in house: structural works, roof framing, steel construction, aluminium and timber joinery, electrical and technical packages, finishes. Every project is conducted to the same standard: deadlines met, execution kept under control and quality down to the smallest detail.

LEADERSHIP

MESSAGE FROM THE CHAIRMAN.

**“TO BUILD FOR THE STATE,
IS TO BUILD **FOR ALL.**”**

Since 1998, Société AHMA has placed its expertise at the service of Moroccan public commissions: hospitals that care, schools that teach, courts that protect, facilities that bring people together.

Every project we deliver carries the same standard: rigour of execution, respect for deadlines and pride in work well done. That standard we owe to the women and men of AHMA: more than 4,000 employees who, site after site, pass on expertise that nothing can replace.

Our ambition is simple and complete: to remain the trusted partner of the Kingdom's institutions, and to build today what will serve the generations of tomorrow.

MR. AIT HAJ MY ABDELGHNI

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

DNA • 01

COMMITMENT

Commitment is measured by the word kept. A schedule announced, a budget respected, a delivery date honoured: what we promise binds us, from the signing of the contract to the handover of the keys.

DNA • 02

INTEGRITY

Integrity governs the way we act and the way we decide: transparency in our dealings, rigour in our accounts, accuracy in our progress reports. To say what we do, and to do what we say.

DNA • 03

MASTERY

Mastery is the fruit of twenty-eight years of construction sites: expertise proven across every trade and an execution capacity backed by our own teams and our own equipment fleet.

01 — HISTORY • FROM 1998 TO TODAY

28 YEARS, STEP BY STEP.

1998**THE FIRST STONES.**

AHMA is founded in Marrakech with a clear ambition: to build to the highest standard, in the service of the Moroccan State. The first contracts lay the foundations of a course built on seriousness and trust.

2003**THE FIRST MAJOR CONTRACT.**

AHMA wins its first large-scale project for a public institution: the beginning of a long relationship of trust with the contracting authorities of the State.

2008**A HIGHER CLASSIFICATION.**

AHMA obtains a classification that officially recognises the quality and professionalism of its work: a milestone of credibility with public contracting authorities.

2012**THE PUBLIC HEALTH MILESTONE.**

AHMA establishes itself in hospital construction: regional and provincial hospital centres, local and community hospitals, extensions to existing establishments and training institutes for the health professions. A speciality that, contract after contract, extends to every scale of public health facility.

2015**SPORT AND MAJOR FACILITIES.**

Olympic and semi-Olympic swimming pools, multi-sports halls, sports complexes and grounds: AHMA builds the places of collective life and of performance, to the technical requirements specific to buildings open to the public.

2017**THE BIRTH OF AHMA ALU & AHMA WOOD.**

AHMA brings aluminium joinery and timber joinery in house: two integrated workshops that master the detail, from the site through to delivery.

2019**THE PLACES OF THE MIND AND OF KNOWLEDGE.**

Higher education establishments and training centres, médiathèques and cultural facilities, religious buildings, squares and public spaces: AHMA builds the places where knowledge is passed on and where collective life takes place.

2020**THE BIRTH OF AHMA STEEL.**

Creation of the structural steelwork and metal construction department: from AHMA ALU and AHMA WOOD to AHMA STEEL, the company can now do it all, from structural works to steel.

2022**VERTICAL INTEGRATION.**

AHMA brings mechanical services and electrical works in house: mastering the entire chain, from structural works to the technical trades, under one and the same roof. A single point of contact, from bare ground to turnkey delivery.

2026**28 YEARS, WITH THE FUTURE AHEAD.**

More than 4,000 employees, +250 projects delivered, +35 sites under way. And the same promise as on the first day: to build today, and to pass on the expertise of tomorrow.

01 — THE GROUP • INTEGRATED SUBSIDIARIES

THREE SUBSIDIARIES, ONE AND THE SAME STANDARD.

To master every trade package without depending on anyone, AHMA has brought its key trades into three specialised subsidiaries. The client has a single point of contact: the group answers for everything.

SUBSIDIARY • 01

ALUMINIUM JOINERY

Façades, curtain walls, windows and aluminium works: AHMA ALU designs, manufactures and installs the building envelope to millimetre tolerances. The weathertight envelope follows on from the structural works without interruption: the schedule stays in our hands, from the setting out of the façades to the fitting of the last pane of glass.

FAÇADES & CURTAIN WALLS

EXTERNAL JOINERY

WINDOWS & DOORS

GUARDRAILS & SOLAR SHADING

SUBSIDIARY • 02

TIMBER JOINERY

Fitted joinery, internal joinery and timber works: AHMA WOOD gives public buildings their warmth and their finish. From the choice of species to final assembly, every piece is drawn, manufactured and then adjusted on site, with a cabinetmaking expertise passed on from project to project.

BESPOKE FIT-OUT

INTERNAL JOINERY

DOORS & FRAMES

TIMBER FRAMING

SUBSIDIARY • 03

STEEL CONSTRUCTION

Steel frames and structures, calculated, welded and erected for long spans: sports halls, public facilities and technical structures. AHMA STEEL brings together design, fabrication and erection: structures sized to carry the public building in complete safety, with the precision of the workshop.

STEEL FRAMING

LONG-SPAN STRUCTURES

ROOFING & CLADDING

METALWORK & TECHNICAL STRUCTURES

02 — OUR TRADES

SEVEN TRADES, A SINGLE POINT OF CONTACT.

A general building and civil engineering contractor, AHMA supports every client from A to Z, from the structural works to the smallest finishing detail. Seven integrated trades, carried in particular by the subsidiaries AHMA ALU, AHMA WOOD and AHMA STEEL, allow it to master the entire construction chain and to give each project a single point of contact, answerable for the quality of execution as much as for keeping to schedule. An integration proven, since 1998, on the public works of the Kingdom.

01	STRUCTURAL WORKS	STRUCTURE
02	TIMBER & STEEL FRAMING	FRAMING
03	STEEL CONSTRUCTION	AHMA STEEL
04	ALUMINIUM JOINERY	AHMA ALU
05	TIMBER JOINERY	AHMA WOOD
06	ELECTRICAL & TECHNICAL PACKAGES	TECHNICAL
07	FINISHES & FIT-OUT	FINISHES

“We support the client on everything, from the outset down to the smallest detail.”

FROM THE STRUCTURAL WORKS TO THE ENVELOPE

01 • STRUCTURE

STRUCTURAL WORKS

Foundations, structure and frame: we carry the works from the foundations to the elevation, with our own teams, our own plant and execution control at every stage. The base of everything AHMA builds, planned and monitored by our site managers.

02 • FRAMING

TIMBER & STEEL FRAMING

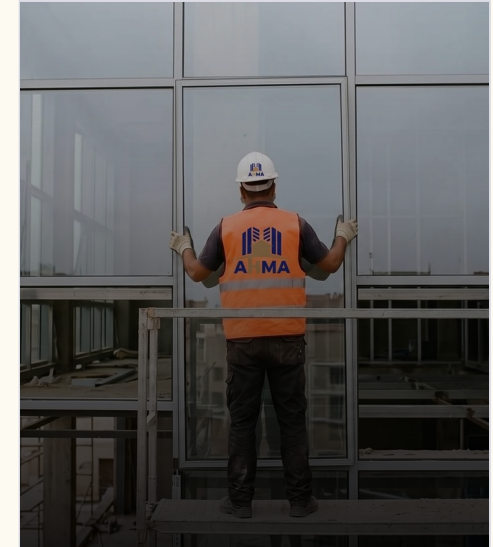

Composite timber and steel frames and structures, calculated and erected for long spans: roofs of sports facilities, halls and public buildings. Every structure is designed, fabricated then installed by our teams, from design to erection.

03 • STEEL

STEEL CONSTRUCTION

Steel structures and works, designed, welded and erected by our integrated subsidiary AHMA STEEL: the precision of the workshop in the service of the site, and structures sized to carry the public building in complete safety.

04 • ALUMINIUM

ALUMINIUM JOINERY

Façades, curtain walls, windows and aluminium works delivered by AHMA ALU: the envelope of the building, installed to millimetre tolerances. The weathertight shell follows on from the structural works without a break: the schedule stays in our hands.

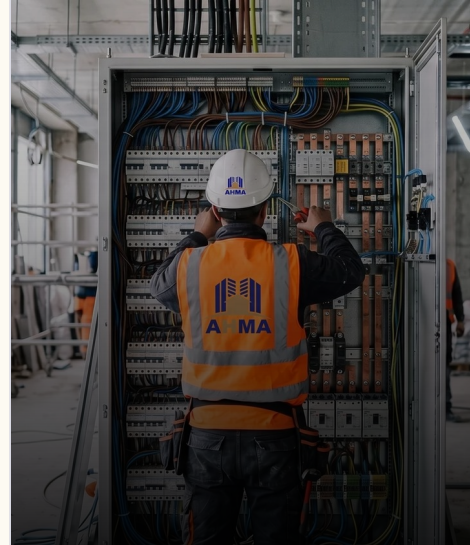

FROM THE TECHNICAL PACKAGES TO HANDOVER

05 • TIMBER

TIMBER JOINERY

Fit-out, interior joinery and timber works by AHMA WOOD: the workshop craft that gives public buildings their warmth and their finish. Every piece is drawn, fabricated then adjusted on site, with cabinetmaking expertise.

06 • TECHNICAL

ELECTRICAL & TECHNICAL PACKAGES

High and low voltage, technical packages and installations: the building that works day to day, not only the one that rises. Packages brought in-house since 2022 to master the whole chain, under one and the same roof.

07 • FINISHES

FINISHES & FIT-OUT

Coverings, paintwork and careful finishes, through to handover: the smallest detail treated with the same rigour as the structure, because it is the detail the client sees every day.

FROM A TO Z

FROM BARE GROUND TO TURNKEY HANDOVER.

Every work package mastered in-house is one less uncertainty for the client: a single hand on the schedule, quality controlled at every stage.

A SINGLE POINT OF CONTACT: THE GROUP ANSWERS FOR EVERYTHING.

Structural works, the envelope, the technical packages and the finishes follow on without interruption, under a single project management.

07

INTEGRATED TRADES

KEY FIGURES • ACROSS THE KINGDOM, SINCE 1998

THE COMPANY IN FIGURES.

28 years

YEARS OF PUBLIC SERVICE

Serving Moroccan public procurement, from the first formwork to handover, without interruption since 1998. Trust built contract after contract with the State's clients.

+4,000

EMPLOYEES

The women and men of AHMA: tradespeople, site managers, works supervisors and management staff. Trained teams retained over time, in every region where we build.

+250

COMPLETED PROJECTS

Public buildings delivered for the ministries, local authorities and institutions of the Kingdom, from health to justice. Every building has its counterpart in another city, for another client.

+35

PROJECTS IN PROGRESS

Sites under execution across the country: hospitals, public facilities, housing and public infrastructure, followed by our own teams, with a single hand on the schedule.

PRESENT ACROSS THE KINGDOM

25 cities

Agadir • Aguelmous • Azilal • **Béni Mellal** • **Casablanca** • Chichaoua • Demnate • El Youssoufia • Essaouira • **Fès** • Figuig • **Guelmim** • **Larache** • **Marrakech** • Meknès • **Rabat** • Safi • **Salé** • Settat • Sidi Ifni • Tamarar • Tamesna • Tan-Tan • **Tétouan** • Tinghir

OUR CLIENTS

Predominantly public bodies: Al Omrane, ANEP, APDN, ministries, administrations and universities of the Kingdom. Detailed references and certificates available on request.

TECHNICAL RESOURCES

THE GROUP'S OPERATIONAL CAPACITY: OUR PLANT AND EQUIPMENT.

183

COMPANY-OWNED EQUIPMENT

Cranes, machinery, batching plants: a fleet owned outright, which makes AHMA self-sufficient on its sites. No hire arrangements imposed on us, no waiting: the resources are there, mobilised at the pace of the schedule.

27

LIFTING

22 tower cranes • 5 mobile cranes

42

EARTHWORKS

16 compactors • 15 backhoe loaders • 6 hydraulic excavators • 5 loaders

33

CONCRETE

14 concrete batching plants • 19 mixer trucks

45

TRANSPORT

18 tipper trucks • 16 trailers • 6 dumpers

17

HANDLING

17 forklifts

19

POWER

13 generator sets • 6 compressors

FLEET INVENTORY

	Tower crane	22		Tipper truck	18		Compressor	6
	Forklift	17		Concrete batching plant	14		Dumper	6
	Compactor	16		Trailer	16		Mobile crane	5
	Backhoe loader	15		Concrete mixer truck	19		Loader	5
	Generator set	13		Hydraulic excavator	6			

A fleet in constant development: AHMA invests continuously in its equipment and works with the leading equipment manufacturers in Europe and China, so as always to have the latest models at its disposal, in the service of speed and productivity on site. Maintained and renewed by our own logistics teams, the fleet remains permanently available: its mobilisation depends on us alone.

03 — HUMAN RESOURCES

A SOLID TECHNICAL DEPARTMENT.

AHMA's strength lies first of all in its 4,000 employees: craftsmen, site managers, works supervisors and management staff, present in every region where we build. Trained, long-serving teams that carry each project from the first formwork to the handover of the keys.

At the heart of this organisation, a solid technical department brings together a full range of engineers covering every discipline of the works: electrical engineers, building services engineers and engineers specialising in structural works and structures, supported by a design and engineering office, a quantity surveying department and a BIM and modelling unit.

This in-house engineering capability works hand in hand with the delivery management teams: area managers, project managers and the planning and scheduling unit supervise every site, with the skills its scale requires.

— DETAILED ORGANISATION CHART AVAILABLE ON REQUEST

ENGINEERING • 01

ELECTRICAL

High and low voltage, distribution and technical installations: dedicated engineers, from detailed design to commissioning.

ENGINEERING • 02

BUILDING SERVICES

Plumbing, air conditioning and networks: building services packages designed and monitored in house, for a building that works day to day.

ENGINEERING • 03

STRUCTURAL WORKS & STRUCTURES

Engineers specialising in structural works and structures, guarantors of the soundness of the building, from foundations to superstructure.

AND BEYOND

EVERY DISCIPLINE

Geotechnics, cost studies and construction economics, methods, planning and QSE, roads, utilities and infrastructure, BIM and modelling: every specialism, under a single project management.

TEAMS THAT ARE TRAINED, LONG-SERVING, AND COMMITTED TO EVERY PROJECT.

The safety of our employees, everywhere and at all times. Employment and training in the regions where we build. Execution that is compliant, controlled and documented.

+4,000
EMPLOYEES

03 — HUMAN RESOURCES • ORGANISATION CHART

THE GROUP'S ORGANISATION.

HUMAN RESOURCES • HUMAN CAPITAL

HUMAN CAPITAL, OUR CORNERSTONE.

Behind every project delivered there are women and men: engineers, technicians, site managers, workers and support teams who give substance to our commitments. At AHMA, we are convinced that the quality of a building begins with the quality of those who build it.

That is why we make a point of recruiting the best profiles and of cultivating, day after day, an environment in which everyone feels recognised and in their rightful place. Beyond the sites, a genuine collective life animates our teams: shared moments, activities and events that strengthen bonds and the family spirit.

For us, investing in human capital is not a turn of phrase: it is the first condition of expertise that is passed on, and of works that endure.

PROJECTS • HEALTH

BUILDING PUBLIC HEALTH.

CENTRE RÉGIONAL D'ONCOLOGIE IN BÉNI MELLAL

BÉNI MELLAL • LALLA SALMA FOUNDATION FOR CANCER PREVENTION AND TREATMENT

Built in Béni Mellal for the Lalla Salma Foundation for Cancer Prevention and Treatment, the Centre Régional d'Oncologie is a specialised care facility serving the region.

CENTRE HOSPITALIER PROVINCIAL DE TINGHIR

TINGHIR • ÉQUIPEMENT TINGHIR

The Centre Hospitalier Provincial de Tinghir is a structuring health facility for the province and its inhabitants. Such a project brings care closer to local populations and strengthens the health network of the territory.

PROJECTS • HEALTH

BUILDING PUBLIC HEALTH.

HÔPITAL LOCAL DE DEMNATE

DEMNATE • PROVINCIAL HEALTH DELEGATION, AZILAL

In Demnate, in the province of Azilal, AHMA built the town's local hospital on behalf of the Azilal Provincial Health Delegation. This local facility brings care closer to the inhabitants of the High Atlas, in a territory where access to hospital services had until then required...

HÔPITAL DE PROXIMITÉ AÏCHA

SAFI • MINISTRY OF HEALTH • JASSIM & HAMAD BIN JASSIM CHARITABLE FOUNDATION

Jointly led by the Marrakech Region and the Jassim & Hamad Bin Jassim Foundation of Qatar, the local hospital in Safi illustrates what a committed institutional partnership can bring to public health.

PROJECTS • HEALTH

BUILDING PUBLIC HEALTH.

THE CENTRE HOSPITALIER RÉGIONAL CHARIFA IN MARRAKECH

MARRAKECH • MINISTRY OF HEALTH • JASSIM & HAMAD BIN JASSIM CHARITABLE FOUNDATION

In the heart of the Sidi Youssef Ben Ali district in Marrakech, AHMA delivered, for the Ministry of Health and the Jassim & Hamad Bin Jassim Charitable Foundation, the Centre Hospitalier Régional Charifa, a facility with a capacity of 45 beds.

HÔPITAL DE PROXIMITÉ DE TAMANAR

TAMANAR • ESSAOUIRA PROVINCIAL DIRECTORATE FOR EQUIPMENT, TRANSPORT, LOGISTICS AND WATER

In Tamanar, in the province of Essaouira, AHMA built a 45-bed local hospital. The facility serves a rural municipality in the south of the province, on the route linking Essaouira to Agadir, where access to care had until then required long journeys to the hospital centres of the...

PROJECTS • HEALTH

BUILDING PUBLIC HEALTH.

HEALTH

INSTITUT SUPÉRIEUR DES PROFESSIONS INFIRMIÈRES ET TECHNIQUES DE SANTÉ

GUELMIM • AGENCY FOR EQUIPMENT, TRANSPORT, LOGISTICS AND WATER

Located in Guelmim, the annexe of the Institut Supérieur des Professions Infirmières et Techniques de Santé of Agadir trains the care professionals of tomorrow, nurses and health technicians, in the service of the healthcare system of the Guelmim-Oued Noun region.

SPORT & YOUTH

PISCINE SEMI-OLYMPIQUE ACHARAF

MARRAKECH • AREF MARRAKECH-SAFI

In the Acharaf district of Marrakech, AHMA built a semi-olympic indoor swimming pool for the Regional Academy for Education and Training (AREF) Marrakech-Safi. This local facility gives the young people of the district a place to learn to swim and to practise sport under supervision.

PROJECTS • SPORT & YOUTH

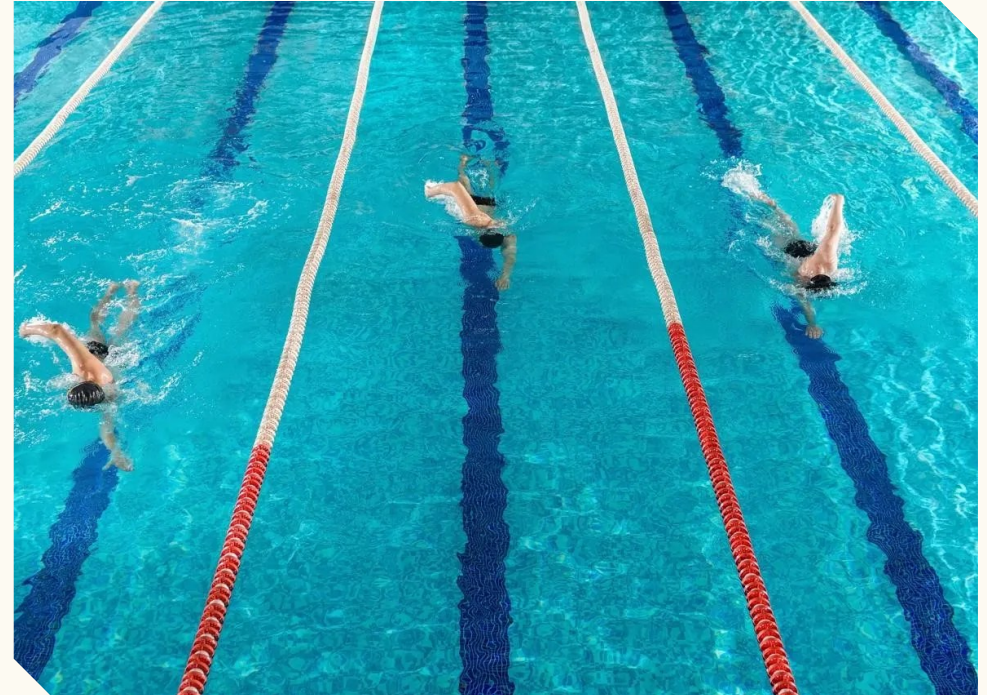

SPORT AND COMMUNITY SPACES.

PISCINE SEMI-OLYMPIQUE DE LARACHE

LARACHE • LARACHE PROVINCE

In Larache, AHMA carried out the construction of a semi-olympic swimming pool on behalf of the Governor of Larache Province. Delivered to the city, this public aquatic facility gives residents and sports clubs a place to train and to learn to swim, in the service of the life...

PISCINE COUVERTE DE M'HAMID

MARRAKECH • MINISTRY OF YOUTH AND SPORTS

At the heart of the M'hamid district in Marrakech, AHMA delivered to the Ministry of Youth and Sports a semi-olympic indoor swimming pool intended for year-round swimming.

PROJECTS • SPORT & YOUTH

SPORT AND COMMUNITY SPACES.

PISCINE OLYMPIQUE COUVERTE DE TÉTOUAN

TÉTOUAN • AGENCY FOR THE PROMOTION AND DEVELOPMENT OF THE NORTH

In Tétouan, the indoor olympic swimming pool built for the Agency for the Promotion and Development of the North provides the city with a covered sports facility. An indoor olympic pool calls for a carefully controlled envelope, in which structure, waterproofing and user comfort come together.

SALLE OMNISPORT MAGHREB AL JADID

LARACHE • AGENCY FOR THE PROMOTION AND DEVELOPMENT OF THE NORTH

In Larache, AHMA built the Salle omnisport Maghreb Al Jadid: an indoor arena whose white façades, pierced with mashrabiya screens, converse with the architecture of the city. Stands, sports floor and ancillary rooms were delivered ready for use.

PROJECTS • SPORT & YOUTH

SPORT AND COMMUNITY SPACES.

SPORT & YOUTH

SALLE OMNISPORT DE TÉTOUAN

TÉTOUAN • AGENCY FOR THE PROMOTION AND DEVELOPMENT OF THE NORTH

In Tétouan, AHMA built a multi-sports hall on behalf of the Agency for the Promotion and Development of the North. This covered facility, dedicated to indoor disciplines, gives the province an arena able to host training sessions, competitions and sporting events.

JUSTICE & ADMINISTRATION

EXTENSION OF THE 2° G.M.M. BARRACKS IN CASABLANCA

CASABLANCA

In Casablanca, the extension of the 2° G.M.M. barracks provided the military site with housing for non-commissioned officers and troops, together with the associated external works.
